¹ Additional bonus is applied for Non-Cash Transactions, provided that the total amount on an individual deposit is from 1,500,000 to 5,000,000 tenge (1% of bonuses) or over 5,000,000 tenge (2% of bonuses) for three (3) business days before the relevant Non-Cash Transaction. Total balance is accounted for on a deposit in the tenge currency.

² Bonus limits apply per Client, regardless of the number of Cards, incl. other card products. If the Client has several types of Cards and conducts operations on them, the maximum bonus limit is defined as the difference in limits between the Card with the highest limit and the limits actually used under other Cards. For additional Cards, bonuses are credited to the bonus account of the main Cardholder.

³ The Client receives additional bonuses in the amount of 5% on his/her birthday for Card transactions conducted (from 00:00 to 23:59 according to the time of the country where the transactions are conducted). The bonus is accrued only on the main Card. Bonuses are not accrued on additional Cards. The bonus accrual limit is 100,000 bonuses per birthday, not including monthly Card limits.

⁴ Bonuses are accrued outside of daily/monthly bonus accrual limits.

⁵ Favorite category set by default for this Card type.

⁶ Bonus is accrued only for purchases made with Apple Pay/Samsung Pay/Google Pay/Garmin Pay at POS-terminals and online. Bonus cannot be combined with Online Shopping Bonus.

⁷ The amount of accrued bonuses depends on the Non-Cash Turnover on all Client Cards issued by the Bank in the previous Billing Period. At the same time, when calculating the amount of Non-Cash Turnover on the Client Cards, Retail transactions indicated in the List of Exceptions under which no bonuses are accrued and bonuses cannot be spent, posted on the Bank official website (www.eubank.kz), are not taken into account. These restrictions do not apply to payments made in the mobile app. In case of cancellation (refund) of a Non-Cash Transaction in the current Billing Period, the total amount of Non-Cash Turnover in the previous Billing Period is reduced by an amount proportional to the amount of the refundable Non-Cash Transaction. Also, when calculating Non-Cash Turnover on Cards, payments made in the Eurasian Bank mobile app are taken into account, including those in the Loan Repayment category (monthly payments, partial early repayment, full early repayment), with the exception of payments in the Bookmakers category.

⁸ Bonus is awarded as follows: at POS-terminals, for purchases made using Apple Pay/Samsung Pay/Google Pay/Garmin Pay, for online purchases regardless of the payment method. The Client can select 1 of the 7 categories in the Bank mobile app, every 30 calendar days from the date of installation. For Auto Card products: Mastercard World and Credit limit with installment option and revolving loan – selecting favorite category by SmartCard: Mastercard is impossible.

⁹ Bonus is not accrued when paying for purchases using Apple Pay/Samsung Pay/Google Pay/Garmin Pay.
